ABOUT US

CV. Humitrap Indonesia is a fast growing company manufacturing moisture absorber products known as container desiccant with its brand named **Humitrap**.

Humitrap is a modern desiccant with perfect package, non-woven membrane outer lining and HUMICELL technology, assuring your shipment moisture free. Humitrap binds all water molecules and prevent them from giving harm to your shipment.

WHEN IT STARTED?

Humitrap Container Desiccant was manufactured since 2005 in Solo, Indonesia with production capacity up to 800,000 Kgs per year and sales value up to US\$ 700,000 nowadays.

Our customer ranges are exporters, forwarders to manufacturer in many export industry fields (furniture, agriculture, textiles, garments, etc). Our products are environmental friendly, highly tested and certified by SGS.

PRODUCT SPECIFICATION

A. Container Desiccant

Humitrap Premium

Size :
820 X 150 X 40 (mm)

Weight :
1250 Grams

Absorption Capacity :
Up to 4500 grams

Active Component :
Absorbing Powder

Moistgard Pole

Size :
610 X 140 X 30 (mm)

Weight :
1000 Grams

Absorption Capacity :
Up to 3500 grams

Active Component :
Absorbing Powder

Moistrap Sac

Size :
600 X 140 X 30 (mm)

Weight :
900 Grams

Absorption Capacity :
Up to 2500 grams

Active Component :
Absorbing Powder

B. Small Desiccant

Product : **Natural Desiccant 5 gr**
Size : 75 X 50 X 5 (mm)
Weight : 5 Gr
Absorption Capacity : Up to 10 gr
Active Component : Absorbing Powder

Product : **Natural Desiccant 10 gr**
Size : 100 X 50 X 7 (mm)
Weight : 10 Gr
Absorption Capacity : Up to 20 gr
Active Component : Absorbing Powder

Product : **Natural Desiccant 25 gr**
Size : 100 X 75 X 10 (mm)
Weight : 25 Gr
Absorption Capacity : Up to 50 gr
Active Component : Absorbing Powder

Product : **Natural Desiccant 50 gr**
Size : 100 X 100 X 10 (mm)
Weight : 50 Gr
Absorption Capacity : Up to 100 gr
Active Component : Absorbing Powder

INSTALLATION PROCEDURE

1. Open the plastic packing.
2. Paste The Natural Desiccant into the box. Glue only the edges and make sure the center is not covered with the tape, so that there is room to absorb the humidity.

C. Perfumed Desiccant

Product : **Perfumed Desiccant**
Size : 110 X 110 X 10 (mm)
Weight : 50 Gr
Absorption Capacity : Up to 100 gr
Active Component : Absorbing Powder

INSTALLATION PROCEDURE

1. Open the Moistgard Perfumed Desiccant plastic packing.
2. Pull the hook and hang it any where you want to keep the air in dry condition (ex. Car, wardrobe, etc)

WHY HUMITRAP ?

1

Tested and proved as the best available in the market.

Humitrap has been through a series of tests making it the best desiccant product in the world.

2

Turning moisture into a compact substance with the lowest cost

Our advanced formulas in Humitrap make sure that all moisture will be absorbed and turned into a compact substance.

3

Completely traps moisture

Once the moisture is trapped, Humitrap will keep it locked up and cannot evaporate.

4

Environmentally friendly

The main ingredients come from nature and packagings are recycleable that comply with International standard requirements.
