COMPANY PROFILE

GULAPA

ABOUT US

GULAPA was established by PT Berkas Petani Indonesia. The company name comes from our mission to be a blessing and to increase the life standard of local farmers in Banyumas, Central Java by partnering up with them and sooner or later giving back to society.

We are committed to maintain sustainability for the entire community and society as a whole.

Head Office :
Jakarta, Indonesia

Manufacture :
Banyumas, Indonesia

OUR LOCATION

Indonesia

OUR COMMITMENT

Our commitment is to ensure all of our products have the best quality, especially our **organic coconut sugar** that we work directly with our local farmers daily.

We train our farmers to farm organically, without chemicals or additives, starting from how to fertilize coconut trees to processing coconut sap according to international standards. Our trees grow 100% naturally without added chemicals which can cause unwanted damage.

This supply chain control allows us to consistently maintain our high quality standards.

GUAPA

OUR PRODUCT

GUAPA

ORGANIC CRYSTAL COCONUT SUGAR

GULAPA organic crystal coconut sugar is a natural sugar made of coconut sap that is manually collected from the coconut blossom then processed by removing the water content until it forms into sugar granule. By practice, coconut trees are cultivated free from chemical material to yield organic output. Other than being the most sustainable form of sugar and having low glycaemic index of 35, placing organic coconut sugar within the healthier spectrum!
