

# ORGANIC PURE GINGER and TURMERIC JUICE EXTRACT

singabera®

Despite advances in extraction technology, we have elected to offer the purest form of herbs powder. From fresh hand-harvested ginger and turmeric, we cold pressed the roots and spray-dried it to produce this amazing **water-soluble roots powder** locking its **natural taste and real aromatic freshness** like the fresh form.

Singabera products are manufactured and packaged using hygienic modern manufacturing techniques to deliver the excellent quality, purity and freshness in every serving.

The roots juice powders are available in following variants:

# ORGANIC COCONUT SUGAR & COCONUT NECTAR SYRUP

Coconut sugar is unrefined all-natural alternative sweetener to refined cane sugar. As we discovered in the process of making Singabera Ginger Drinks, it is difficult to find high quality, high purity coconut sugar. Most of coconut sugar on the market is produced by farmers or small community using traditional methods and then aggregated, resulting in products of differing quality, color and purity.

So Intrafood decided to make its own best quality Indonesian natural sweetener by cooperating with local farmers then further processing in the factory, and share it with the world.
