

Who We Are

PT. Rama Gombang Sejahtera is a private wood manufacturing company which was established in 1979. We have 2 factory locations in total more than 11 Ha area, both in Kebumen Central Java Indonesia.

Experienced in exporting to more than 30 countries, our company focus in high quality products, with experienced human resource and supported by qualified facilities and resources.

Our company also considers the environment and sustainability of our raw materials. That's why most of our products are made by **Albasia Falcata** which is quick growing trees from wood farmers. We also replant the wood together with some farmers. And the other materials such as the forest woods are taken from certified suppliers.
